

I urge the FCC not to implement any proposal that would lessen Indiana's Privacy Law protection. I have a 3 year old daughter and a 19 month old daughter. Prior to the Indiana Privacy law, it was not uncommon to receive 3-4 telephone solicitation calls per day. Whether I was feeding my children, giving them a bath, or just putting them down for a nap, the phone would ring. Most of the calls I would receive were solicitation calls. These calls would begin as early as 7 a.m and as late as 9 p.m. Once I heard of the sign-up for the Indiana Privacy Law, I signed up immediately. My solicitation telephone calls have ceased. I believe I have only received one or two calls since I signed up on the "No Call List."

I would urge you not to change the Indiana Privacy Law. This is my home. I should not be harrassed every day in the privacy of my own home.

Thank you for your time.
